FEE STRUCTURE

The Player Registration fee structure is designed to help in achieving a number of outcomes for Squash in WA.

WHY PLAYER REGISTRATION IS IMPORTANT

Player registration numbers in Squash are vitally important on a number of levels:

1. Player registration revenue is a vital source of income for the ongoing administration of our sporting association, enabling the delivery of the variety of competitions, events and programs we offer, and Pennants in particular. This is particularly so in the light of the ever increasing competition for the funds of our main funding partners.
2. Player registration paid in WA also goes to assist funding of administration at the Australian level and the International level. Without registrations paid the World Squash Federation and Squash Australia would find it extremely difficult to survive and attend to the administration of squash.
3. More players insured for injury through registration is of benefit to all in Squash and will reduce potential liability exposure for the industry
4. The number of registered players is a significant metric by which Squash's main funding partners (DSR and Healthway), and potential commercial sponsors, evaluate WA Squash's funding applications. The higher the numbers, the greater the chance we have of increasing our funding to the benefit of all in Squash.
5. Player registration provides valuable information for WA Squash, allowing the Association to keep players informed on the competitions and programs it runs, and enabling analysis of what is needed to best promote the sport in WA.

Social Player Registration offers social club members the opportunity to register with WA Squash and gain player injury insurance.

Please call WA Squash on 9225 7255 if you have any queries in relation to WA Squash Player Registration fees and the categories of registration offered.
